

Placement - Opportunity

Hawker Pacific Aerospace (HPA) – London

A Lufthansa Service Company

Company Background:

Hawker Pacific Aerospace (HPA) is a leading provider of repair and overhaul services of landing gear, flap tracks and carriages, hydraulic systems and other components for commercial aircraft, helicopters and other aircraft. Our customers include major international airlines and air transport fleets.

The company has two primary landing gear refurbishing locations.

Hayes United Kingdom
Los Angeles United States of America

Our UK operation was established in February 1998 with the acquisition of a British Airways in-house facility that specialized in the overhaul and repair of landing gear, flap tracks and carriages. Initially working from a base in Heathrow we transferred into our purpose built facility in Hayes, Middlesex in June 1999. Lufthansa Technik, the world leader in aircraft maintenance, acquired a majority shareholding in September 2000 and has since become sole owner. We aim to become the preferred provider in the market we serve with a reputation as a company of integrity and excellence in service.

Hawker Pacific Aerospace set up a placement program together with Lufthansa Technik, offering students from various fields and backgrounds the opportunity to gain valuable experience in the international Aerospace Industry.

Hawker Pacific Aerospace also gives students the opportunity to write their final year dissertation for the company.
